THE SMÖRGÅSBORD

TRANSPLANTED to America the Smörgåsbord,—an old Scandinavian custom,—has grown strong deep roots in our national affections until now we feel that it belongs to us. The very sound of the word smörgåsbord implies relaxation—the leisure to enjoy food, friends and conversation of our selection and in the combination and quantity we like. It has become a favorite Sunday night dinner.

It is particularly useful as a means of entertaining sumptuously, larger numbers of guests than can be otherwise entertained in the average home. Perhaps the chief charm of the smörgåsbord is the opportunity our hostess gives us to enjoy our very own choice from the enticing selections she places before us. We help ourselves to the dishes we want, returning to the board again and again.

There are two favored arrangements for the smörgåsbord. If space is limited it is well to push the dining table against the wall, allowing ample space on the three sides for guests to move easily. If there is plenty of space, the table may remain in the center of the room and the guests circulate freely.

The table may be covered with a cloth, or mats and tray cloths. China, silver and napery are care-

fully arranged at the nearest end or the end of the near side.

Types of food are grouped not only for convenience, but also that the cold and jellied salads may not be warmed by hot dishes. Also if electric heat is used for chafing dishes, casseroles and coffee, the connections usually come from one source. Coffee may be made in the kitchen or brewed at the table. Sweets are usually at the far end of the table and if the preferences of all the guests are known, the coffee may be there too.

The return of the chafing dish is a further indication of the popularity of informal entertaining. Time was when the chafing dish went to college with the daughter of the house and thereby began a long and picturesque social career. The hostess of today will find it a charming and useful addition to her smörgåsbord for hot entrées and hors d'oeuvres.

Maids may circulate among the guests, frequently seated at small bridge tables. They remove plates, serve desserts and beverages, and replenish plates.

All of these recipes are ready for the smörgåsbord and the clever hostess will make her choice, knowing the preferences of her guests.

COLD CANAPÉS—SANDWICHES—SPREADS

DAISY CANAPÉS

- 8 rounds bread
- 1/3 cup softened butter
- 1 1/2 ounces anchovy paste
- 4 hard-cooked eggs

Spread untoasted rounds of bread with butter and then with anchovy paste. Cut narrow strips out of hard-cooked egg whites. Arrange in petal fashion on paste and place sieved hard-cooked egg yolk in center. Makes 8 canapés.

HALF AND HALF CANAPÉS

- 1/2 cup flaked cooked salmon
- 2 tablespoons mayonnaise
- 1 1/2 tablespoons lemon juice
- 1/4 teaspoon salt
- Dash pepper
- 8 toast rounds
- 3 tablespoons softened butter
- 1/2 cup mashed avocado
- 8 strips pimiento

Mix salmon, mayonnaise, 1/2 tablespoon lemon juice, salt, and pepper. Spread toast rounds with softened butter. Spread half of each round with salmon mixture, the other half with avocado mixed with remaining lemon juice. Mark the division with a pimiento strip. Makes 8 canapés.

OLIVE CANAPÉS

- 8 rectangles bread
- 3 ounces cream cheese
- 16 stuffed olives, sliced

Spread bread with cream cheese. Place a row of olive slices down center of bread allowing slices to overlap slightly. Makes 8 canapés.

Use diamond-shaped bread slices and place a slice of stuffed olive in center and a border of finely chopped stuffed olives or thin slices, cut into halves, around edge of each.

OLIVE PINWHEELS

- 6 tablespoons ground boiled ham
- 2 tablespoons mayonnaise
- 1 teaspoon horse-radish
- 1 loaf sandwich bread
- 4 tablespoons butter
- 6 stuffed olives

Combine ham, mayonnaise, and horse-radish. Remove all crusts from bread. Cut bread lengthwise into slices 1/4 inch thick. Spread with softened butter and with ham mixture. Place olives in a line crosswise at 1 end of the bread; roll bread starting at the end of slice. Wrap roll in a damp cloth or in oiled paper and place in refrigerator for several hours. When ready to serve cut crosswise into slices any thickness desired. This makes sufficient filling for 1 full-length slice of bread which will cut 8 thin pinwheels. Use peanut butter instead of ham; omit horse-radish.

Use any ground poultry, fish or meat instead of ham.

Spread with a mixture of 3 ounces cream cheese and enough chili sauce to make cheese of spreading consistency.

The olive, black, green or stuffed will help make attractive canapés

Arrange chopped olives, pimientos, egg white, parsley or chives, crosswise on slices spread with desired filling.

SHRIMP CANAPÉS

- 8 cooked jumbo shrimp split from head to tail
- 1/2 cup French dressing
- 16 toast rounds
- 4 tablespoons lemon mayonnaise
- 1 1/2 ounces caviar
- Parsley

Marinate shrimp in French dressing for 1 hour. Spread toast rounds with lemon mayonnaise. Place shrimp, flat side down, on toast. Fill curve formed by shrimp with caviar. Garnish with tiny sprig of parsley at the head of shrimp. Serves 8.

IGLOO CANAPÉS

- 4 hard-cooked eggs
- 1 recipe Anchovy Filling for Stuffed Eggs
- 8 rounds bread
- 3 ounces cream cheese

Shell eggs, cut into halves crosswise and remove yolks. Fill whites level-full with anchovy filling. Spread bread with softened cream cheese, turn filled egg white flat side down on bread. Makes 8.

GARNISHES AND DISPLAYS

CONTINENTAL PLATEAU FOR HORS D'OEUVRES

1 large loaf sandwich bread, unsliced

½ cup melted butter

Remove crust from top, sides and ends of loaf. One and a half inches up from the base at one end of loaf make a horizontal cut 3 inches deep toward the center. Cut down from the top of this 3-inch distance and remove the section. Repeat on the other end of loaf. This makes the first step of the plateau. For the second step, 3 inches toward the center from the vertical cut edge, cut down to within 3 inches of the base of loaf, then cut horizontally from the edge at this point and remove this section. Repeat on the other end of loaf. Brush with melted butter and toast on all sides under broiler. Place in center of tray or platter, cover with hot or cold hors d'oeuvres on picks or canapés. This makes an especially attractive center piece when placed on a mirror.

Nimble fingers have a way with tomatoes that is easy to learn

HORS D'OEUVRES SERVERS

If there is need for extra space on which to serve hors d'oeuvres, attractive vegetables and fruits may be used very successfully. A large eggplant gives a colorful base for hors d'oeuvres on picks and has space for 20 or more depending on size of eggplant. A honeydew melon or cantaloupe is a good base for the more colorful hors d'oeuvres. Melons may also be cut into halves, seeds removed and center filled with ripe or stuffed olives or radish roses and the edge used for the hors d'oeuvres base. A very large orange or red apple serves well for the small party.

VEGETABLE CURLS—Carrot, turnip, or beet curls may be made by piercing the center of the uncooked vegetable, then cutting a thin continuous ring from the vegetable holding knife flat against the top surface. Crisp in ice water.

PAPRIKA CELERY CURLS—After celery has curled, drain, dip in melted butter then in paprika. Chill.

SUGAR PLUM TREE

1 large pineapple

½ pound sweet cherries

Cut a 1-inch slice from top of pineapple, keeping all the spiny leaves intact. Wash leaves thoroughly and wipe dry. Press leaves outward, curving them to represent branches of a tree. Set upright on the cut surface and stick cherries on ends of leaves. Use as a center of a large salad plate arrangement or as hors d'oeuvres server.

For the children's party: Use various colored gumdrops or tiny animal crackers instead of cherries.

FOR TOMATO SALADS

PREPARATION—Dip firm ripe tomatoes (1 for each serving) into boiling water and peel carefully. Chill, cut and serve in any of the following ways:

1. Turn tomato stem-end down and cut tomato into 7 petals about ¾ down toward stem-end. Spread petals out, remove center and fill center with chopped vegetable salad.
2. Turn tomato stem-end down and with the knife slanted toward center cut a circular section from tomato so that the depth at center is 1 inch. Remove section, fill hollow with a cream cheese filling and place section cut-side up on the filling with sprigs of parsley arranged around edge of cover.
3. Turn tomato stem-end down and cut into sections from top to within ½ inch of stem-end, making cuts ½ inch apart. Turn tomato ¼ way around and make the same number of cuts in the same way, thus cutting tomato into criss-cross design or cubes.
